

# CADWorx Workshop

27<sup>th</sup> May 2015

Experience yourself how easy to use our Plant Design Software!

This **hands on** CADWorx workshop where you can experience how easy it is to design plant by using our software. This workshop will show you the following distinctive CADWorx features:

- Pipe Routing – Intuitive pipe routing. (Plus grip, Piping Rules, Drag-lock feature)
- Spec Editor – Open and change specifications from CADWorx without having to close it.
- ISOGEN – New Isogen control panel to make it easier to change your isometric drawing.
- Clash Detection – Detect clashes inside CADWorx.
- Integration – Import and Export model from CAESAR II and PV Elite seamlessly.
- Automatically generate BOM – Generate BOM with one button.
